

ABC Construction Trade Spring Accelerated Craft Training

The ABC Spring Training Program is designed to meet the needs of both contractors and those looking to build their knowledge and skills in construction. These classes are accelerated (2 nights a week) at the ABC Broadview Heights Training Center. Spring semester students will receive the first level of NCCER Construction Craft Training in Carpentry or Electrical, plus OSHA 10-Hour Safety Training.*

The Training being held at the ABC Broadview Heights Training Center is ideal for:

- Employers looking to quickly get new hires up to speed with basic safety and construction knowledge and skills, saving time and money.
- Employers looking to broaden the skills of their workforce by giving employees cross-training in another trade or refreshing the skills and knowledge in a primary trade, improving productivity.
- Individuals looking to get the education and training that will help them be prepared for a career in construction.

Tuition for this training is just \$1,275 for ABC Members and unemployed students, and \$1,600 for students from Non-Member Companies. Those students wishing to continue to take craft training can move to Level 2 in the Fall, while completing the Core Curriculum** a requirement to receive Level 1 NCCER Certificates.

These Spring classes fill up quickly, so don't miss out on this cost-effective opportunity to jump start your workforce's skill set, or to get the fundamental skills you need to join the construction industry.

Classes start the week of March 21st.

Electrical Level 1

Construction Craft Training (104 Credit Hours)
Topics include

- Electrical Safety
- Introduction to National Electrical Code
- Device Boxes
- Electrical Test Equipment
- Conductors and Cables
