Construction Craft Training

The ABC Northern Ohio Chapter's Construction Craft Training Program is a nationally recognized program of study in 17 different construction trades. Based on the National Center for Construction Education and Research (NCCER) curriculum, the program is open to anyone interested in developing their construction knowledge and skills, and who meet the minimum enrollment requirements.

About Apprenticeship

Apprentices are individuals sponsored by and working for an employer. They are required to work full-time in their trade throughout the year. They attend **Construction Craft Training** classes for a minimum of 144 hours per year. Attendance is mandatory. When a Registered Apprentice completes 576 hours (4 years) of classroom training and 8,000 hours of on-the job training (2,000 hours per year, 40 hours per week), they will receive a Journeyperson Certificate of Completion from the Ohio State Apprenticeship Council (OSAC) and the Department of Labor. ABC can coordinate registration of your apprentices. Contact ABC for more details and a registration packet.

ABC Member Companies Take Advantage of Tuition Savings

By joining ABC, contractors, suppliers and service firms receive discounts on student enrollment in the ABC Construction Craft Training/Apprenticeship Program of *\$500 per student*. In addition, ABC members do not pay the apprenticeship registration fee, realizing an additional savings of *\$500 per registered apprentice*. Together, ABC members receive \$1,000 savings per registered apprentice enrolled in the ABC Construction Craft Training Program. Oftentimes, this savings alone covers the cost of membership dues. Visit the ABC website at nocabc.com for a membership application and details on the many programs and services offered to member companies.

Associated Builders & Contractors (ABC) is a national association of construction industry professionals dedicated to quality work and quality workers of all specialties in the construction industry. To that end, the Northern Ohio Chapter of ABC provides a variety of member programs and services designed to help your company grow your business, build the knowledge and skills of your workforce, and maintain a safer and more productive jobsite.

Training Options

ABC offers online learning for many trades. Online students complete the "classroom" portion of their training online, and meet periodically with an instructor(s) to complete written and performance testing. Online learning tuition is the same as for traditional classroom training.

Interested in conducting the training at your site? ABC can assist with that as well. Please give us a call (440.717.0389) to discuss the options that will work best for you.

Members can save up to \$1150 per student!

Directions for Enrollment Form Completion

Complete the form to the right for each student. For multiple students, copy the form. The form(s) may be faxed to 440.717.1636 or mailed to ABC NOC | 9255 Market Place West | Broadview Heights, OH 44147.
