Build your Team with Construction Craft Apprenticeship Training!

You can count on ABC construction craft / apprenticeship education and hands-on training to help members of your team build their knowledge and skills for improved safety and productivity.

ABC Education Programs Include:

- Electrical
- Carpentry
- Heating, Ventilating, Air Conditioning (HVAC)
- Plumbing
- And More

ABC Education Programs Feature the following:

- More than 45 years of experience training thousands of construction professionals in N. Ohio
- Nationally-recognized NCCER curricula (www.nccer.org)
- Registered Apprenticeship with 300 contractors
- College credit toward an Associate degree in construction included in tuition
- Knowledgeable and experienced journey person-level instructors
- Hands-on and online instruction
- Reasonable, all-inclusive tuition with tuition payment options

Start your career in construction today! Complete and return the attached Enrollment packet or contact us at ABC. Call 440-717-0389.

Spring 2021 "Accelerated"
Construction Trades/Apprenticeship Program
Learning Formats

The ABC - Northern Ohio Chapter will be offering Construction Craft / Apprenticeship Education Programs in an expanded variety of formats beginning in January 2021. These formats have been approved for the delivery of apprenticeship training related-instruction while maintaining COVID-19 Safety measure practices

All instruction is based on the nationally recognized NCCER curricula, and the online learning program, **_NCCER Connect._** Instructors complete training on how to use the curricula with most having journeyman+ experience in the trade. In all cases, the NCCER curricula will be supplemented with videos, instructor demonstrations and other media to enhance the learning experience.

The Spring 2021 "Accelerated" Construction Craft

The ABC Spring Accelerated, Trade-Specific Training Program is designed to meet the needs of both contractors and their workforce. These two-night-a-week classes gives students the first level of NCCER construction craft training in: Carpentry, Plumbing, Electrical or HVAC and OSHA 10-Hour Training in just four months. This training, being held at the Broadview Heights Training Center, is ideal for:

- Employers looking to quickly get recent hires up to speed with trade-specific theory and basic skills, while not losing valuable time on the job-site.
- Employers looking to broaden the skills of their workforce by giving employees cross-training in another trade.
- Individuals looking to get top training by experienced professionals that will help them be prepared for the 2021 Construction Season.

Tuition for this training is just $1,390 for ABC Members and unemployed students, and $1,720 for students from Non-Member Companies. Those wishing to continue to take craft training can move to Level 2 in the Fall of 2021 and complete the Core Curriculum at that time. (Additional tuition will be required for Core).

These Spring classes fill up fast. Don't miss out on this cost-effective opportunity to jump start your workforce's skills, or to get the fundamental skills you personally need to join the construction industry in 2021. Classes start the week of March 29th. The Registration Deadline is March 19th.

TechCred Program Guidelines

Ohio's TechCred Program gives employers the chance to upskill current and future employees in today's tech-infused economy. Employers who submit successful applications will be reimbursed up to $2,000 per credential when current or prospective employees complete eligible technology-focused credentials.

Application and Reimbursement Process

1. Employer applies for funding during application period
2. Development Services Agency scores application and awards funding
3. Employer sponsors current or prospective employees to complete an eligible credential program
4. Current or prospective employee successfully completes the program and receives approved credential
5. Employer submits proof of completion and receives reimbursement

Employer Eligibility

Any Ohio registered employer that employs Ohio resident W-2 employees is eligible to apply. Employers of all sizes and in all industries are encouraged to apply. Only one application will be accepted per employer per application period. Agencies of the State of Ohio are not eligible to receive reimbursement.

Employer Size Classification

For the purpose of application and fund distribution, the following employer size classifications will be used:

- 1-50 Employees: Small
- 51-200 Employees: Medium
- 201+ Employees: Large

Individual Eligibility

Ohio employers may apply for reimbursement for credentialing of both current and/or prospective employees. Employers will not be required to identify specific individuals on the application for funding but will be required to identify employees who earned the approved credentials when completing the reimbursement request.

To receive reimbursement, the employer must be able to verify that credential earners are Ohio residents with a verifiable Ohio address. Individuals must be W-2 employees at the time of the reimbursement request; independent contractors or 1099 employees are not eligible for this program.

Application Scoring Criteria

Employer applications will be reviewed competitively, based on the following criteria:

- Pledged average wage increase in relation to credential cost
- Level of economic distress in employer's region and regional balance of awards
- Amount of employer contribution toward the cost of credential

Applications will be reviewed competitively; awards will **not** be made on a first-come, first-served basis.

Application Period

When the application period opens companies can apply for eligibility at TechCred.Ohio.Gov.

Information Required for Application

Applicants will be required to submit the following information:

Employer Information:

- Federal Tax ID
- Employer Name
- Supplier ID Number
- Ohio Charter Number
- Address
- Employer's Industry
- Number of Full-Time Employees in Ohio
- Employer Website Link
- Employer Point of Contact and Contact Information

Credential Information:

- Credential Selected (from approved list)
- Training Cost (if applicable)
- Certification Test Cost (if applicable)
- Total Actual Cost of Credential (Training and/or Certification Costs Combined)
- Name of Training Provider
- Type of Training Provider
- Requested Reimbursement Amount from Credential

Trainee Information:

- Number of Prospective Employees Who Will Earn Each Credential
- Number of Incumbent Employees Who Will Earn Each Credential
- Average Wage of Employees Before Earning Credential
- Projected Average Wage of Employees After Earning Credential

Award Amounts

Reimbursements will be up to $2,000 per credential. Employers are eligible to receive up to $30,000 per funding round.

Credential Eligibility

Credentials must meet the following requirements*:

Industry-recognized

The term "industry-recognized," used with respect to a credential, means a credential that is sought or accepted by employers within the industry or sector involved as a recognized, preferred, or required credential for recruitment, screening, hiring, retention, or advancement purposes; and, where appropriate, is endorsed by a nationally recognized trade association or organization representing a significant part of the industry or sector.

Technology-focused

Technology credentials demonstrate the competencies necessary to succeed in an occupation that utilizes technology to develop, build, and deliver products and services. Technology credentials rely on science, technology, engineering and/or math related education, as well as technical skills, to benefit an employer dependent on the development, deployment, and investment in new and emerging technology including software development, advanced manufacturing, data analytics, cybersecurity, computer hardware and design, military applications, and other emerging fields.

Short-term

Can be completed in 12 months or less and is less than 30 credit hours or 900 clock hours.

Responsible

Where possible, online and distance-learning programs are encouraged. When in-person elements are necessary, employers and training providers must ensure they are in compliance with Ohio Department of Health and Centers for Disease Control and Prevention recommendations.

Adding Credentials to the Approved List

TechCred is designed to be responsive to the dynamic workforce needs of employers. Employers can request that additional credentials meeting the eligibility requirements identified above be added to the list of eligible credentials. When filling out the TechCred application, employers will choose "Credential Not Listed" and be prompted to provide:

- Name of Credential
- Identification of the Credential as a Certificate or Certification
- For Certificates: Number of Credit Hours or Clock Hours
- For Certifications: Certification Issuing Body
- Evidence the Competencies/Skills Taught or Measured in the Credential are Technology-Focused
- Evidence the Credential has Value Beyond the Submitting Employer and is not Exclusive to One Organization
- Link to Credential Website or Uploaded Syllabus/Brochure

Credentialing Timeline

Costs incurred by the Applicant prior to an award of eligibility and a written Agreement is done at the Applicant's risk. All credentials must be completed by the Grant Expiration Date provided on the Agreement to be eligible for reimbursement.

Eligible Providers

The TechCred program encourages employers to partner with the training provider that will most effectively meet their needs. Eligible training providers include universities, community colleges, technical centers, and private training providers. TechCred will not reimburse employers for internal training or credentialing programs unless the same program is offered to the public and the cost is verifiable.

When conducting credentialing programs with in-person elements, training providers must ensure they are in compliance with Ohio Department of Health and Centers for Disease Control and Prevention recommendations.

Reimbursable Costs

Employers may be reimbursed for outlays covering tuition, lab fees, manuals, textbooks, and certification costs, up to $2,000 per credential.

Reimbursement Timeline

Employers must submit documentation within six (6) weeks of an employee completing the credential to receive reimbursement. Credentials must be completed within 18 months from the date of award eligibility.

Reimbursement Process

To request reimbursement, employers that have been awarded eligibility must submit the following information at TechCred.Ohio.Gov:

Credential Documentation:
- Proof that the individual has completed the specified credential, such as a copy of the certificate or certification uploaded as a .pdf file

Cost Documentation:
- Invoices for costs incurred, which clearly identifies the cost of the credential
- Proof of payment, which may include a cancelled check, credit card statement detailing the date and the charge of the training, a copy of the company's accounting record, or an invoice showing payment with a zero balance

Credential Earner Information:
- Name (first and last)
- Email
- Last 4 Digits of Social Security Number
- Date of Birth
- County of Residence
- Wage Prior to Credential
- Wage After Credential is Earned
- Race (optional)
- Gender (optional)
